Attn: Bob Watters**

**Dear Bob and Staff,**

**Today I am the proud owner of a beautiful, fire-safe steel roof installed with meticulous perfection by your crew headed by Manuel, and the two Joses.**

**Most all of the homes in our neighborhood are at the point of needing new roofs, and many have chosen to use composition material. After much research, it was obvious to me that a steel roof would offer much more in the realm of safety, permanence and also beauty. So I chose your Metro Shake II "weathered timber" material and it exceeded all of our expectations.**

**The workmanship by your crew was a joy to behold. Their attention to detail was awesome. Our thanks also to your "gutter and downspout" crew who were so knowledgeable in their craft.**

**Please accept our gratitude and complements on a perfect job, and rest assured I will be touting the benefits of signing with Steel Roofing Systems and Metro products.**

**Sincerely,**

**Kenne and Joan Renkert**
