**Dear Bob,**

**We want you to know how pleased we *ore* with our new roof!**

**Our last 50 year roof lasted only 10 years. The American Cemwood roof which was made of wood fiber and concrete didn't hold up and needed replacement. After a lot of research looking at the different products on the market, we decided on a metal roof for all of its advantages. We are confident that this roof will last a long time.**

**Our experience dealing with SRS clearly exceeded our expectations. We met Don Currie at a local home show and signed up for *on* estimate. He was professional, knowledgeable, answered all of our questions and came in with a very competitive price. Martin Solorio and his hardworking crew were simply outstanding. It is becoming more and more difficult to find craftsmen who are skilled at what they do and concerned about doing a job right.**

**Bob, it was a pleasure doing business with you *and* your company. You set the tone for customer *service* and that attitude is present in all of your employees. We know you will be immensely successful expanding your business to the Sacramento area.**

**We would recommend SRS without hesitation to anyone considering a new roof. Many of our friends and family have already heard about our positive experience with SRS.**

**Sincerely,**

**Don and Sheri Morishita**
