RE: Our new Steel Roof

Dear Bob,

Thank you so much for our new roof. We are really enjoying it.

We went from heavy concrete Spanish tile to Spanish-Looking Tile with our new Steel Roof. The look and the color are rich and elegant. It has great curb appeal and we enjoy driving up to our home knowing it is leak-free, water-proof, wind-proof, fire proof and good looking.

The workmen were excellent; quick and professional and they left the premises clean. The guys came back to install my new skylights which arrived after the new roof was already on.

If Bob says he will do something, you can count on his word. He sells a great product and does what he says. We recommend SRS, Bob Watters, and his Steel Roof.

Sincerely,

Terry Borawski
