Dear Joel:

I wanted to let you know that we just sold our house and we got top dollar for it! The steel roof we bought from SRS played a big part in making the sale easier. The roof not only looks good, the warranty can be transferred to the new owners of the house. That fact is comforting to new home buyers as they know they will not have to worry about replacing the roof in the future.

It was a pleasure working with you.

Sincerely,
