re: Job at 2508 Pawnee Dr.,  
Walnut Creek, Ca

Bob Watters-

Wonderful job! The crew was excellent. Left the job site in good order each day & did a great total cleanup at the end of the job, which was finished in 4 days as promised. The roof looks great – wish I had known about these roofs in 1990!

I also appreciate your arranging for the cut off and removal of the old solar system. Also the manner in which the crew coordinated with the installation of the solar tube by Solabrite.

Well Done – Thanks again, everyone was a pleasure to deal with.
